

Small Electronic Items

Small but mighty

► High-tech, design and functionality are united in the tightest of space at cocos. For example the allegedly smallest MP3 player in the world, the *cocos-teeny weeny*. Only 24 x 24 x 24 mm in size and weighing merely 16.5 g it is already one of the big players.

The assortment in the MP3 and MP4 player area ranges from elegant MP3 watches, sporty MP3 sunglasses, amusing MP3 writing instruments, MP4 all-rounders through to the new generation of MP3 players, the *cocos-card MP3 player*, which keeps its memory thanks to a SD card. With

this model the memory can be easily upgraded using the existing SD card or by purchasing a new one. The practical memory cards are already available for minimum order quantities of 50 pieces. Individual (pantone) corporate colour combinations are possible for some of the players.

All products comply with all of the current certification standards such as Sisvel, EAR and ROHS; and GEMA fees are paid. The products can be customised using laser engraving or pad-printing techniques, target

group and CI-compatibly packed in metal, elegant wood, plexi or cardboard boxes.
